

# VIDEO ASSISTANT MOBILE SALES DOCUMENTATION

Version 2020-07-11

## BENEFITS

### Faster learning thanks to Instant Video Replay

Immediate Video feedback accelerates the learning process and enhances the awareness of athletes coaches and trainees.

The KITRIS Video Assistant allows you to check your own impression with video images in a simple and intuitive way directly on the sports field.

### Universally usable

The Video Assistant creates the right atmosphere at events, is ideal for training and further education and is an impressive mobile video solution for sports coaching.

## STRENGTH FROM A-Z

### Mobility

- It can be assembled and disassembled in 5 minutes and fits into any passenger car.
- Any desired screen and camera position can be set up in a few seconds.

### Easy to use

- The system is ready for use with a single press of a button.
- Intuitive user interface on a large touch screen.

### Maximum training efficiency

- The screen is directly at the place of the action. The video feedback can be integrated into the activity without changing position and is therefore highly efficient.
- The software can be operated both via touch and remote control.

## TAILOR-MADE

### Specifically designed hardware

- Designed on the sports field and developed for the sports field.
- Robust, modular and multifunctional.
- Feature Philosophy: All you need & no gadgets
